## ABOUT INDIJ READERS

Indij Readers Ltd (Indij Readers) is a unique and innovative Aboriginal charity, registered in the not-for-profit sector.

The company works in partnership with Aboriginal people, Aboriginal communities, organisations, agencies, non-government agencies and organisations, and education and learning institutions in the development of both traditional and contemporary story.

Reading opens doors, doors to information about all sorts of subject matter, the reader learns about people and places, improving their understanding of and concern for all humanity.

This process can contribute towards a sense of responsibility for understanding others through identifying with individual characters, places and circumstance.

The unique nature of our books allows the reader to absorb and be nourished with something from a context that will deepen their understanding of Aboriginal people, their culture and difference in perspective.

## Story

Story develops language and literacy skill. The inherent power in story naturally draws the child listener, whether they are an able or less able reader, story captivates attention and fires imagination.

Indij Readers books allow the reader to be exposed to wonderful words, familiar and unfamiliar, common and grand, wild and joyful Aboriginal English as well as traditional Aboriginal language.

Encompassed within our titles are traditional Aboriginal Dreaming stories and those stories that have been passed down through the generations.

These stories allow the reader to share insight into the connectedness and nature that Land has in the life of Aboriginal people, give unity and purpose to Aboriginal society and community, and are an important source of nourishment in the maintenance of identity today.

Through story the reader will gain insight, understanding, appreciation and perspective of Aboriginal Australia, its diverse richness stimulating thought and building knowledge through difference and perspective.

Through the stories of Aboriginal peoples spiritual ancestors the reader will gain understanding and insight.

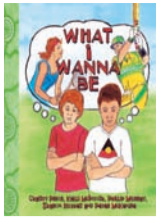

Understanding and beliefs of particular environmental and topographical features as well as traditional Aboriginal moral and ethical teaching are encountered throughout some of our newer titles.
